THE OFFICIAL RULES AND REGULATIONS GOVERNING THE SPORT OF 5 PIN BOWLING

The following pages of rules and regulations shall be known as the official rules of the Canadian 5 Pin Bowlers' Association (*C5PBA*), which governs the sport of 5 Pin Bowling and the method by which the sport is played.

ANY LEAGUE OR TOURNAMENT SANCTIONED BY THE CANADIAN 5 PIN BOWLERS' ASSOCIATION SHALL NOT MAKE ANY RULE THAT CONTRADICTS ANY SECTION OF THE OFFICIAL RULES AND REGULATIONS. FAILURE TO ABIDE BY THIS RULING SHALL RESULT IN REFUSAL BY THE ASSOCIATION TO RECOGNIZE ANY SCORES BOWLED IN THE LEAGUE OR TOURNAMENT COMPETITION, WHETHER IT IS FOR RECORD SCORE OR TOURNAMENT QUALIFYING PURPOSES.

HOW TO HAVE RULES EXPLAINED...

From time to time it may become necessary to have a specific rule explained or interpreted, especially when it involves a dispute or protest about the rule.

The procedure for having a rule interpreted is:

- 1) *Discuss the matter with your League President or a Tournament Official.***

If that doesn't resolve it.....

- 2) *Contact the President of your Local (House (if applicable) or Zone) Association.***

Most matters can be resolved by the League or Local Association President, but if the problem is still not resolved.....

- 3) *Write to the President of your Provincial /Territorial 5 Pin Bowlers' Association.***

If that still doesn't resolve the problem.....

- 4) *Write to the President of the Canadian 5 Pin Bowlers' Association who shall definitely provide an answer.***

HOW TO CHANGE RULES & REGULATIONS.....

As you participate in sanctioned leagues or tournaments, you may discover certain rules or regulations that you feel are unfair and need to be changed or modified.

CHANGES CAN AND DO HAPPEN!

In order to change or modify a specific rule or regulation, simply follow these procedures:

- 1) Submit a written recommendation to your Local (*House (if applicable) or Zone*) 5 Pin Bowlers' Association.**

Your suggested change must be written in detail including the old rule, section number, page number, rule number, and a detailed description of the suggested change(s) to that rule. You must also include your name, address, phone number(s) and Association membership number.

- 2) The Local (*House (if applicable) or Zone*) Association will submit your suggested change to the Provincial/Territorial Association's Board of Directors. You will be advised in writing as to whether or not they agree with your recommendation.**
- 3) If the Provincial/Territorial Association agrees with your recommendation, it will be submitted to the Canadian 5 Pin Bowlers' Association for review at their annual meeting. Each recommendation is reviewed and voted on separately.**
- 4) If your recommendation is approved, it will become effective for the next bowling season. If a Rule Book is not being printed for that particular bowling season, a supplement to the rule book will be included in the C5PBA's Annual Tournament Formats Booklet and League Executive Handbook.**

Note: *A House Association is an association of C5PBA members from within one bowling centre whose affairs are conducted by a volunteer Board of Directors elected from its membership to represent the members from that centre.*

A Zone Association is an association of C5PBA members from a geographically designated Zone or Region. Its affairs are conducted by a volunteer Board of Directors elected from its membership to represent the members from bowling centres in that zone.

RULE 1 - GAME (*Definition of*)

- (a) A game of 5 Pin Bowling shall consist of ten (10) frames and shall be played with regulation equipment on regulation lane-beds.

RULE 2 - FRAME (*Definition of*)

- (a) A frame shall consist of three legally delivered balls made by the same bowler in succession, except where such bowler shall roll a strike (one ball) or a spare (two balls).
- (b) If a strike or spare is made, the frame is considered complete, except if the bowler records a strike or spare in the tenth frame, then the bowler shall immediately bowl one or two balls, as may be necessary to complete the tenth frame and game.

RULE 3 - PLAYING AREA (*Definition of*)

- (a) The playing area shall be defined as the lane-bed surface, including the channels, immediately past the foul line and extending to the end of the pit.

RULE 4 - LEGALLY DELIVERED BALL (*Definition of*)

- (a) A bowling ball shall be delivered legally when, by manual means, it leaves the bowler's hand or prosthesis (*as described in Section B Rule 5(b)*) and crosses the foul line into the playing area.
- (b) Except as set out in Section B - Rule 5, a bowling ball must be delivered entirely by manual means and without the aid of any device which imparts a force to the ball or controls the direction of the ball which would not otherwise be present but for the use of the device.
- (c) A bowling ball shall not be delivered in an overhand motion. A legally delivered ball must be delivered in an underhand motion using a pendulum swing with a release point being no higher than waist level.

PENALTY: Bowler may be subject to suspension (*See also Section D - Rule 5(b)*).

- (d) A ball may not be rolled to clear deadwood or balls from the channels, unless permission to do so is granted by the opposing team captain, coach or tournament official.

his/her total game score shall be made (*see Section B - Rule 13(b)*).

The prosthesis shall do no more than assist a disabled person to perform the essential elements of bowling which he or she could not otherwise perform.
- (c) Where a disabled person intends to use a prosthesis or mechanical device in sanctioned league or tournament competition, permission to use such device may be granted or refused by the Board of Directors of the Provincial 5 Pin Bowlers' Association. In determining whether to grant or refuse permission for the use of the device, the person shall, at least 60 days before the league or tournament play, apply in writing to the Board of Directors of the Provincial 5 Pin Bowlers' Association. The Board of Directors shall take into consideration the following:
 - i Whether the device affects the person's manual control, delivery and release of the bowling ball itself, including whether the device affects the direction, velocity, or spin which imparts an unfair advantage to the said person;
 - ii A description or drawing and/or model of the said device is furnished to the Provincial 5 Pin Bowlers' Association for examination;
 - iii A medical doctor's certificate, provided to the Provincial 5 Pin Bowler' Association describing the disability of the bowler, together with the doctor's opinion that the device is necessary to allow the person to grasp, or aid in grasping and deliver the ball, and a recommendation that the aid should be used;
 - iv Any formal complaint received by any other person with regard to the device either before or after the commencement of the sanctioned league or tournament competition;
 - v Whether the person could be accommodated by the use of the proposed device without causing undue hardship upon other participants and significantly impact upon the way in which any other

participants would be required to bowl, or impact significantly or cause hardship upon the sport governing body.

- (d) Should permission be granted for the use of a device, a special identification affidavit will be issued to the applicant, indicating that the aid may be used in sanctioned league and/or tournament competition providing the bowler holds a current C5PBA affiliated card.
- (e) If permission is not granted to use the proposed device, the person shall have the right of appeal to the Board of Directors of the Canadian 5 Pin Bowlers' Association, in writing.

- (g) In the event of an appeal in the circumstance of Rule 5(c) iv, the person shall be allowed to compete in the league or tournament competition with the use of the device under protest by the complainant or complainants, and subject to a ruling on appeal.

RULE 6 - REGULATION EQUIPMENT (*Definition of*)

- (a) Regulation equipment (*pins, balls, lanes, etc.*) shall be defined as instruments or apparatus used in the playing of 5 Pin Bowling which strictly conform to the standards and specifications as set forth by the C5PBA 5 PIN BOWLING STANDARDS & SPECIFICATIONS COMMITTEE.

NOTE: These standards & specifications are published in the C5PBA 5 PIN BOWLING STANDARDS & SPECIFICATIONS MANUAL (*available from the C5PBA or www.c5pba.ca*).

RULE 7 - OUT OF BOUNDS BALL (*Definition of*)

- (a) Any legally delivered ball which leaves the lane-bed on the lane where the bowler is attempting to bowl down pins, or enters an adjacent lane, shall be declared an Out of Bounds ball (*see Section C - Rule 16*).
- (b) Pins knocked down by an Out of Bounds ball shall not count (*see Section B - Rule 11(n)*).

RULE 8 - MISSED SHOT (*Definition of*)

- (a) Any legally delivered ball which does not bowl down any pins whatsoever, but remains on the lane-bed until leaving the lane-bed via the end of the lane, shall be defined as a "Missed Shot" (see Section C - Rule 17).

RULE 9 - LOST BALL (Definition of)

- a) A ball shall be declared "lost" if any of the following circumstances occur:
- i. The ball clears (goes over top of) or hits and clears a C5PBA approved "Lane Protection Device" (see Section C - Rule 18).
 - ii. The ball knocks a C5PBA approved "Lane Protection Device" out of the bracket, or hits it requiring the device to be repositioned.
 - iii. A ball delivered while the sweeping unit or shield of an automatic pinsetter is in motion and that ball comes in contact with the sweeping unit or shield.
- b) A Lost Ball shall count as a ball rolled, and any pin(s) bowled down by such ball shall not count as downed pins and must be re-spotted before any subsequent delivery is attempted.

RULE 10 - DEAD BALL (Definition of)

- (a) A ball shall be declared "dead" if any of the following circumstances occur:
- i. If, as the bowler is delivering or has delivered a ball, attention is immediately called to the fact that one or more pins were missing from the set-up.
 - ii. A human pinsetter, removes or interferes with any pin(s) before the pin(s) stop rolling or before the ball comes in contact with the pin(s).
 - iii. When a bowler is interfered with by another person, or moving object while the bowler is in the act of delivering a ball. The bowler must immediately, then and there, accept the resulting pinfall of such ball or declare the ball "dead". Interference shall be defined as physical contact by a person or object with the bowler.
 - iv. When any pin(s) which the bowler is attempting to bowl down, are moved or knocked down in any manner, during or after a ball delivery and before such ball makes contact with any pin(s).

- v. When a legally delivered ball comes in contact with an object(s), which must be identifiable. *Note - This does not include C5PBA approved "Lane Protection Devices".*
 - vi. When a legally delivered ball comes in contact with the sweeping unit or shield of an automatic free-fall or string pin-setter providing that the shield or sweeping unit was in its rest position when the ball entered the playing area.
 - vii. When a bowler(s) bowls out of turn or on the wrong lane (*see Section B - Rule 21*).
- (b) Any pin(s) bowled down by a "dead ball" shall not count and must be re-spotted before the bowler makes his/her next delivery. The bowler involved shall be required to re-bowl said ball, after cause for declaring the dead ball has been removed or rectified.
- (c) A legally delivered ball may only be declared dead, following the approval of:
- i. Both opposing Team Captains or Coaches, **OR**
 - ii. A League Official, **OR**
 - iii. A Tournament Official, **OR**
 - iv. An Official Scorekeeper

RULE 11 - LEGAL PINFALL (*Definition of*)

- (a) Every ball delivered by a bowler shall count as a ball rolled, unless a ball has been deemed a "dead ball" (*see Section B - Rule # 10*).
- (b) Pins shall not be conceded. To be credited with pinfall, a bowler must bowl down pins with a legally delivered ball.
- (c) Pins knocked down by a pin(s) rebounding back into the playing area shall count as pins down.
- (d) After a legally delivered ball makes contact with a pin(s), it cannot thereafter be called an "Out of Bounds" ball and any pin(s) bowled down by such ball shall count as pins fairly knocked down, except if such ball rebounds from a rear (*pit*) curtain or cushion.
- (e) It is each bowler's responsibility to determine that the pin set-up is correct before attempting a delivery.

A bowler must insist that any pin(s), that are incorrectly set, be re-spotted to their correct position before the bowler makes a subsequent delivery, otherwise the bowler implies that the set-up is satisfactory.

If, after a bowler has delivered a ball, it is discovered that one or more pins are improperly set although not missing, the ball and resulting pinfall shall be counted.

No change in the position of any pin which remains standing, can be made after a previous delivery, unless the pin-setter has moved or misplaced any pin after the previous delivery and prior to the next ball being delivered (See *Section B - Rule 12*).

- (f) Pins which are bowled down by the action of a legally delivered ball and remain lying on the lane-bed or in the channels, or which lean, so as to touch kickbacks or side partitions, shall be termed "DEADWOOD" and all such pins shall be counted as down pins. All deadwood must be removed before the bowler's next delivery. If a bowler, fails to clear the deadwood, said bowler shall be charged with a foul and shall receive a deduction of 15 points from his/her total game score upon completion of the game.
- (g) Any pin which is leaning or not standing solidly on its base due to the support of another pin(s) or ball, shall be declared a down pin if the pin(s) falls when the supporting pin(s) or ball is removed. On freefall machines, a neutral person or a league/tournament official must remove the supporting pin(s) or ball.
- (h) Pins knocked down by a pin(s), which come in contact with a human pin-setter shall count as pins down, except if the human pin-setter should deliberately throw a pin(s) onto the lane-bed, thereby knocking down a pin(s). Pins knocked down by such action shall not count and must be re-spotted.
- (i) Any pin, which stands upright, not on the lane surface, shall count as a down pin.
- (j) Any pin(s) bowled down by a ball that has hit a C5PBA approved Lane Protection Device, shall be counted as downed pins, providing the ball did not:
 - i hit and clears (*goes over top of*) such device (*see Section B - Rule 9*).
 - ii. knocks such device out of bracket (*see Section B - Rule 9*).
 - iii. hits such device requiring it to be repositioned (*see Section B - Rule 9*).
- (k) Any pin(s) knocked down OR pin(s) which seems to be falling, due to action of a legally delivered ball, before the shield or sweeping unit of an automatic string pin-setting machine descends, shall be counted as down, regardless if said machine resets any such pins.
- (l) Any pin(s) knocked down by means of the connecting strings of the pins of an automatic string pin-setting machine, shall be counted as down, regardless if said machine resets any such pins.
- (m) Any pins which are leaning and being held up due to the visible support of a connecting string of a pin on an automatic string pin-setting machine, shall be counted as down, regardless if said machine resets any such pins.

(n) The following circumstances do not constitute legal pinfall. In cases where any of the following incidents occur, the ball shall count as a ball rolled, but any pin(s) knocked down shall not count and must be re-spotted in the position on the lane-bed that they occupied prior to the incident occurring:

- i. When any pin is knocked down or displaced by an "Out of Bounds" ball.
- ii. When a ball rebounds from a rear (*pit*) curtain or cushion and knocks down any pin.
- iii. When any standing *pin falls after* being touched by a mechanical or human pin-setter. (*see Section B - Rule 10 (a-ii)*).
- iv. When a "Lost Ball" *bowls down any pin (see Section B - Rule 9)*.
- v. When any pin(s) remains standing after the first or second delivery and the automatic pin-setter is activated in error (*i.e. pushing the wrong button or pedal*), all pins which were standing must be re-spotted and play shall resumewithout any penalty whatsoever to the bowler.
- vi. Any pin(s) knocked down by the action of the deadwood removal mechanism of an automatic pin-setter shall not count as pins down and must be re-spotted and play shall resum without any penalty whatsoever to the bowler.
- vii. ***IF, WHEN BOWLING ON LANES WITH AUTOMATIC FREE-FALL OR HUMAN PIN-SETTERS.....***

and any pin(s), which are bowled off the lane surface, rebound and stand upright **OR** any pin(s) which resume a standing position on the lane surface after having been knocked down **OR** any pin(s) which is knocked off its original pin spot but remains standing, must be counted as standing.

Any such pin(s), shall NOT be re-spotted and must remain in the position on the lane-bed where the pin(s) came to rest. Any such pin(s) must take the value of the nearest unoccupied pin spot. Such pin(s) will retain that value for the duration of the frame. If any pin comes to rest at the midpoint between two unoccupied pin spots, then such pin shall take the lower point value of the two pin spots.

- viii. ***IF, WHEN BOWLING ON LANES WITH AUTOMATIC STRING PINSETTERS:***

and pin(s), which are bowled off the lane surface, rebound and stand upright **OR** any pin(s) which resumes a standing position on the lane surface after having been knocked down, **OR** any pin(s) which are knocked off their pin spot and remain standing, must be counted as standing.

Any such pin(s), **MUST** be re-spotted to their original pin spot stood before the delivery was made.

ix. ***IF, WHEN BOWLING ON LANES WITH AUTOMATIC STRING PINSETTERS.....***

Any pin(s), which remains standing after a legally delivered ball and the shield or sweeping unit of the automatic string pinsetter descends, and such pin(s) are not reset, such pin(s) must be re-spotted on the pin spot that the pin(s) occupied prior to the shield or sweeping unit descending.

EXAMPLE: A bowler legally delivers his/her first ball and the left 3 and 2 Pins were left standing, but the automatic string pinsetter resets all five pins indicating that a strike had been rolled. The left 3 and 2 Pins must be re-spotted and the bowler shall be required to complete the frame.

- (o) In all cases where any pin(s) must be physically re-spotted, permission may be granted to a bowler by the opposing team captain, opposing coach, league official or tournament official, to bowl at said pin(s) using the full five pin set-up.

If a bowler elects to use this option, the bowler must only knock down the pin(s) in question. Should any other pin(s) be knocked down, the ball shall count as a ball rolled but no pinfall shall be credited to the bowler. **NOTE: SUCH PROCEDURE IS NOT ADVISABLE!**

- (p) If any reasonable doubt exists with respect to any of the foregoing provisions, team captains, coaches, and league or tournament officials should rule in favour of the bowler.
- (q) In the case of disputed pinfall, play must be stopped immediately and not continued until such time as the dispute is reconciled between the opposing team captains or coaches. If the dispute can not be reconciled, a League or Tournament Official must be called and a decision made then and there.
- (r) When a protest involving a decision of a League or Tournament Official regarding disputed pinfall is entered, the League or Tournament Official shall ask that a provisional ball or frame (*Refer to Section B - Rule # 18*) be bowled by the bowler involved, until such time as a final decision can be rendered by the League Executive or Tournament Committee.

RULE 12 - PINS OFF SPOT (*Procedure for*)

- (a) When bowling on lanes where automatic pinsetters are in use, all deadwood must be cleared by the machine, if mechanically possible.
- (b) If a bowler, before making his/her first delivery of a frame, notices that the pins are improperly set, the bowler may reset the pins in order to bowl at a proper set-up.
- (c) If an automatic free-fall pin-setter is in use and should it appear that the pin-setter cannot re-spot a pin in the correct position, the pin(s) must be re-spotted by hand and/or any deadwood must be cleared by hand so as not to disturb any off-spot pins.

- (d) When automatic free-fall pin-setters are being used and the deadwood removal mechanism is activated to clear deadwood and any pin(s) which were standing before the mechanism was activated are not reset by the pinsetter, such pin(s) must be reset by hand on their respective pin spot or on the position on the lane-bed that the pin(s) occupied prior to the mechanism being activated.
- (e) When automatic string pin-setting machines are in use and the machine does not properly re-spot a pin(s), such pins shall be re-spotted on the respective pin spot, before the bowler makes a subsequent delivery.

RULE 13 - FOULS (*Definition of*)

- (a) A foul is committed when any part of the bowler's person, wearing apparel or object(s) comes in contact with the lane-bed, foul line, channels, ball return or portion of the equipment or building (*side walls, posts, etc.*) which are on line with or extend beyond the foul line, during or after the act of delivering a ball, providing that the ball is released.
- (b) A foul shall be called if a bowler makes a delivery of a bowling ball when deadwood or balls are lying on the lane-bed, or in the channels.
- (c) When a bowler commits a foul which triggers the automatic foul detection device, the bowler shall not make a subsequent delivery until the indicator (*light or buzzer*) of the foul detection device, returns to its non-indicating mode.

PENALTY: A bowler who does not abide by this rule, shall be assessed a foul on the subsequent delivery.

RULE 14 - CALLING OF FOULS (*Procedure for*)

- (a) The observance of the foul line is mandatory at all times during leagues and tournaments, which include members of the Provincial 5 Pin Bowlers' Association.

PENALTY: Failure to observe all provisions for foul line observance shall disqualify any scores for C5PBA High or Record Score Awards and/or nullify scores being used for qualifying in C5PBA sanctioned tournaments.

- (b) An approved automatic foul detecting device or foul line judge must be used during all sanctioned league and tournament games.
- (c) If an automatic foul detecting device fails to operate properly, a designated foul line judge shall be appointed or the opposing team captains and/or coaches shall be responsible for calling all fouls until such time as the automatic foul detector has been repaired or replaced.
- (d) Fouls may be called by one or more of the following:
 - i) An approved automatic foul detection device;

- ii) A designated Foul Line Judge;
 - iii) Opposing Team Captains and/or Coaches;
 - iv) One or more members of opposing teams;
 - v) An official scorekeeper;
 - vi) A League or Tournament Official.
- (e) A foul must be called and recorded immediately after the foul has been committed and brought to the attention of both the bowler and scorekeeper.
- (f) A foul may be called after a ball has been legally delivered and until such time as the same or another bowler is on the approach and in position to make a succeeding delivery.
- (g) A foul shall be recorded, if a bowler commits a foul which a foul line judge fails to see happen or an approved foul detecting device fails to detect, providing that the foul was seen by a Tournament Official **OR** an official scorekeeper **OR BOTH** team captains or coaches **OR** one or more members from EACH team competing on the pair of lanes where the foul was committed.
- (h) If an approved foul detection device becomes temporarily inoperative, the following procedures shall be used in calling of all fouls, until such time as the device is repaired or replaced:
- 1) LEAGUE PLAY: The team captains shall call fouls or mutually designate an individual(s) to do so.

- (j) When a protest involving a decision of a League or Tournament Official regarding a disputed foul is entered, the League or Tournament Official shall ask that a provisional ball or frame (*Refer to Section B - Rule # 18*) be bowled by the bowler involved, until such time as a final decision can be rendered by the League Executive or Tournament Committee.
- (k) No appeal to a protest decision shall be allowed when a foul is indicated by an approved foul detection device **OR** is called by a designated Foul Line Judge, EXCEPT when it is proved that the device is not operating properly, or there is sufficient evidence that the bowler did not foul.

RULE 15 - NON-FOULS

- (c) A foul shall not be called if the ball triggers the approved foul detection device.
- (d) A foul shall not be called if the bowler goes over the foul line, but does not deliver the ball.
- (e) A foul shall not be called on a bowler who is physically interfered with while in the act of delivering a bowling ball and such interference causes the bowler to commit a foul.

Such ball shall be declared "dead", and any pin(s) knocked down by such ball shall not count and must be re-spotted and play continued without any penalty whatsoever to the bowler.

RULE 16 - PENALTIES FOR FOULS

- (d) Regardless of the number of fouls assessed to a bowler in a given game, a bowler cannot have a net game score of less than zero (0) points.
- (e) At the conclusion of the bowler's game, the scorekeeper shall total the number of fouls committed by the bowler and shall subtract 15 points from the bowler's game score for each and every infraction committed and then record this net score under the bowler's corresponding total column on the scoresheet.

- (d) A provisional ball or frame shall be determined by the following conditions:
 - i) If the protest occurs on the first delivery of a frame, the bowler shall complete his/her frame and then bowl another frame immediately after, unless the protest involves a question of whether a bowler should receive credit for a strike or a lesser number of pins on his first delivery. In such case, the pin(s) which were protested as constituting illegal pinfall shall be re-spotted and the bowler required to bowl another ball.
 - ii) When the protest occurs on the second or third delivery of a frame, the bowler shall bowl a provisional ball(s) against the same set-up of pins which were standing at the time before the protested incident occurred.

A record of both scores for the frames in which the protested ball and provisional ball(s) were thrown, shall be maintained until such time as a final ruling is made on the protest.

The count in each frame where a spare has been made must be left blank until the bowler completes his/her first delivery of the next frame. After this delivery has been made, the point value (*count*) of all pins legally bowled down by that ball is added to the 15 points (*represented by the " / " symbol*) and this count is credited to the frame where the spare was made.

RULE 19 - OFFICIAL 5 PIN SCORING METHOD

The official method and procedure for scoring a game of 5 Pin Bowling is explained in the following sample

FIRST FRAME

ON THE FIRST DELIVERY, only the headpin was bowled down. The headpin symbol "HP" is marked in the first small square of the first frame. ON THE SECOND DELIVERY, the left 3 and 2 pins were bowled down. The total value or "count" of 5 points is entered into the second small square of the first frame. ON THE THIRD DELIVERY, the ball did not knock down any pins but remained on the lane surface until leaving the end of the lane (*did not enter the channels*). The missed shot symbol "-" is placed in the third small square of the first frame. The three small squares are then added (*remember the point values for the scoring symbols*) and the score of "10" is entered in the bottom half of Frame #1.

SECOND FRAME

ON THE FIRST DELIVERY, all the pins except the right corner pin (2 Pin) were bowled down. The right hand corner pin symbol "R" is marked in the first small square of Frame #2. ON THE SECOND DELIVERY, the right hand corner pin is bowled down. This is called a "SPARE" and its symbol "/" is marked in the second small square of Frame #2. Since a spare is worth 15 points plus the count earned on the next ball delivered in the subsequent frame, the score is not entered for Frame #2 until the first ball of the third frame has been bowled.

THIRD FRAME

ON THE FIRST DELIVERY, all pins except the two corner pins were bowled down. This is called ACES and its symbol "A" is denoted in the first small square of Frame #3. The corresponding count for aces (11) is also placed in the third small square of the second frame, giving the spare a value of 26 points (*15 points for the spare plus the 11 bonus points awarded for the pins bowled down on the first ball of the third frame*). The score of 36 may now be entered into the bottom half of Frame #2. This is determined by adding the game score of 10 (*from the first frame*) to the second frame count of 26. ON THE SECOND DELIVERY, the left corner pin (2 Pin) was bowled down. The corresponding count of 2 points is entered in the second small square of Frame #3. ON THE THIRD DELIVERY, the ball entered the right channel and did not bowl down any pins. This "Out of Bounds" shot is marked in the third small square of the frame as "-". Adding the three small squares of Frame #3 gives you a count of "13" points which is added to the score of 36 (*from Frame #2*) and produces a score of 49 in the third frame.

FOURTH FRAME

ON THE FIRST DELIVERY, all the pins except the left hand corner pin (2 Pin) were bowled down. The left hand corner pin symbol "L" is marked in the first small square of Frame #4. ON THE SECOND DELIVERY, the pin was missed but the ball didn't enter the channel. A "-" symbol (*missed shot*) is marked in the second small square of the fourth frame. ON THE THIRD DELIVERY, the pin was missed again and as before the ball did not enter the channel. The missed shot symbol "-" is entered in the third small square of Frame #4. Adding the three small squares of Frame #4 gives you a count of "13" points for the frame and a score of 62 pins which is placed in the bottom half of the fourth frame.

FIFTH FRAME

ON THE FIRST DELIVERY, the headpin was missed and the ball knocked down the right 3 and 2 Pins. No symbol is entered, but the numeral "5" (*representing the point value of the two pins bowled down*) is entered in the first small square of the fifth frame. ON THE SECOND DELIVERY, the remaining pins were bowled down and a spare "/" is indicated in the second small square of Frame #5. Again, the frame score

6		7		8		9		10		TOTAL	
↘	15	↘	15	↘	8	HS	5	2	CO	3	F
137		175		203		218		236		221	

is not entered for Frame #5 until the bonus count from the first ball delivered in the next frame has been determined.

SIXTH FRAME

ON THE FIRST DELIVERY, all pins were bowled down. This is called a STRIKE and is indicated on the scoresheet by placing a "↘" symbol in the first small square of Frame #6. You may now complete the count for the spare recorded in the fifth frame. A spare is worth 15 points plus the value of the first ball delivered in the next frame. Since a STRIKE was rolled on the first ball of the sixth frame, the bonus count added to the spare is 15 more points. This is denoted on the scoresheet by placing 15 in the third small square of the fifth frame thus making the count for the fifth frame worth a total of 30 points (*15 points for the spare + 15 points for the strike*). These 30 points are then added to the score of 62 (*from Frame #4*) giving you a new score of 92 points in the fifth frame. Since a strike is worth 15 points plus the value of pins bowled down on the following (*next*) two deliveries, the game score cannot be entered in the sixth frame until completion of these two deliveries.

SEVENTH FRAME

ON THE FIRST DELIVERY, another STRIKE is rolled. This gives you two successive strikes (*one in the sixth frame and one in the seventh frame*). This is called a DOUBLE. The Strike symbol "↘" is entered in the first small square of Frame #7 and 15 points is entered into the second small square of Frame #6 which represents the first of the two bonus deliveries allowed for a strike.

EIGHTH FRAME

ON THE FIRST DELIVERY, a STRIKE is rolled again. Another strike symbol "↘" is placed in the first small square of Frame #8. You now have three strikes in a row. This is called a "TRIPLE". You must also enter "15" points in the third small square of the sixth frame as the strike rolled in the eighth frame represents the second bonus delivery allowed for the strike bowled in the sixth frame. You may now complete the count for the sixth frame by adding the three small squares for the frame. The first small square contains a strike symbol, which is worth 15 points, the second small square contains a value of 15 points as does the third small square. This gives you a total of 45 points for Frame #6. Adding the 45 points to the score of 92 (*from the fifth frame*) gives you a new score of 137 for six frames. The strike bowled in the eighth frame also represents the first of two bonus deliveries allowed for the strike rolled in the seventh frame. Indicate this by placing its point value (15) in the second small square of Frame #7.

NINTH FRAME

ON THE FIRST DELIVERY, the headpin and left 3 Pin were bowled down. This is called a SPLIT and its symbol "HS" is marked in the first small square of Frame #9. This SPLIT also represents the second bonus delivery of the strike bowled in the seventh frame as well as the first bonus delivery of the strike bowled in Frame #8. Place the corresponding point value for a split (*8 points*) in the third small square of Frame #7 and again in the second small square of Frame #8. The frame total can now be completed for the seventh frame as both bonus deliveries allowed for the strike have been completed. Total the three small squares.... 15 points for the strike symbol + 15 points for the first bonus ball + 8 points for the second bonus ball = 38 points for the seventh frame. Add these 38 points to the score of 137 (*Frame #6*) and record the new score of "175" in the bottom half of Frame #7.

ON THE SECOND DELIVERY, the right 3 Pin and right 2 Pin were bowled down, but the bowler went across the FOUL LINE. Record the count for the ball (*5 Points*) in the second small square of Frame #9. YOU MUST ALSO RECORD THE FOUL! Place the Foul symbol "F" immediately below the second small square of the ninth frame and again in the top right hand corner of the "TOTAL COLUMN" (*at the extreme right side of the bowler's game*). This symbol tells you two things. First the foul was committed on the

second ball of the ninth frame and secondly, the "F" symbol in the total column, reminds the scorekeeper that a penalty of 15 points must be deducted from the bowler's score at the conclusion of the bowler's game. The count of the second ball in the ninth frame (*5 points*) also represents the second bonus ball allowed for the strike bowled in the eighth frame. In the third small square record these 5 points then total the count for the frame. 15 points (*for the strike*) + 8 points (*for the first bonus ball*) + 5 points (*for the second bonus ball*) = 28 points. This count (28) is added to the score from the seventh frame, giving a new score of "203" in Frame #8.

ON THE THIRD DELIVERY, the left corner pin is bowled down which is denoted as "2" in the third small square of the ninth frame. Since no strike or spare has been made in the ninth frame, you can complete the ninth frame by adding the three small squares ($8+5+2=15$) then add this frame count to the score from the eighth frame (203) and enter the new score of "218" in the bottom half of Frame #9.

TENTH FRAME

ON THE FIRST DELIVERY, the headpin, right 3 Pin and right 2 Pin were bowled down. This is called a CHOP-OFF and is denoted by placing its symbol "C/O" in the first small square of the tenth frame. ON THE SECOND DELIVERY, the two remaining pins were knocked down, giving the bowler a SPARE. Record the spare by placing its symbol " / " in the second small square of the tenth frame. Although the bowler has recorded a spare, the game is not complete because a spare is not complete until a subsequent delivery has been made and its point value added to the 15 points represented by the spare. IN THE TENTH FRAME, YOU MUST BOWL THREE BALLS NO MATTER WHAT! This allows for the completion of counts for STRIKES or SPARES made in the final frame. ON THE THIRD DELIVERY, only the right 3 Pin is bowled down. This is recorded as "3" in the third small square of the tenth frame. Calculate the count for the tenth frame by adding the three small squares. REMEMBER...ALL COUNTS PRECEDING A SPARE SYMBOL IN A FRAME ARE DISREGARDED. Therefore, the count for the tenth frame is 18 points (*15 points for the spare + 3 points on the bonus or third ball*). Add the 18 points to the score from Frame #9 and enter the sum (236) in the bottom half of the tenth frame.

YOU ARE NOT FINISHED YET!

For each foul committed during a game, 15 points are deducted from the game score upon conclusion of the bowler's game. Since only one foul was committed by the bowler in this game (*in Frame #9*), we will subtract 15 points from the score of 236. We then enter the FINAL GAME SCORE ($236 - 15 = 221$) under the TOTAL COLUMN at the extreme right side of the scoresheet.

THE BOWLER'S FINAL GAME SCORE IS 221!
